

ARGONUS

AND THE GODS OF STONE™

Argonus and the Gods of Stone out now for PC

Embark on an epic voyage rooted in Greek mythology from the makers of Shadowgate. Ancient mysteries, challenging puzzles, monsters and gods await you in this first-person adventure. Available now on Steam and the Humble Store.

8th October 2019 – Charlottesville, VA - Independent developer Zojoi, creator of the classic hit *Shadowgate*, today announced that its latest PC title *Argonus and the Gods of Stone* is available to buy on Steam and the Humble Store. This new first-person adventure takes players on an epic journey, inspired by the stop motion work of Ray Harryhausen and the Greek mythology movies of the '60s and '70s. Fusing 21st-century visuals and game mechanics into an epic Hellenic poem, Zojoi has created a dreamlike experience that's filled with ancient gods, vengeful gorgons and sword-wielding skeletons.

After the legendary ship, Argo is wrecked on unfamiliar shores, the game's hero Argonus must set about uncovering the fate of his comrades, the fabled Argonauts, and find a way to escape the blight that stalks this uncharted isle. Aided by the goddess Athena, Argonus embarks on an epic journey in which he comes face-to-face with fabled creatures, solves fantastic challenges and forges alliances with fickle gods. Only by solving the mysteries of this accursed isle can Argonus eventually find his way home.

Zojoi is releasing both the standard game, a special Argonautica DLC package and the Olympus Edition which combines the two. The Argonautica package includes these exclusive downloads: an immersive walk-through audiobook narrated by Betsy Brantley (*The Princess Bride*, *Who Framed Roger Rabbit?*), the game's score by composer Rich Douglas (*Shadowgate*, *Day of Infamy*, *Stranger Things: The Game*) and a digital compendium of the game's concept art from illustrator Nabetse Zitro.

Players can begin their journey into the world of *Argonus and the Gods of Stone* today on PC via Steam and Humble Stores. The standard game costs \$19.99 | £15.49 | €16.79, the Argonautica package is \$9.99 | £7.19 | €8.19 and the Olympus Edition is available at 10% off.
