

# Goblins & Grottos

The Post-Modern Fantasy Pixel Platformer  
Is now in Early Access

Veteran indie game developers Psychic Software (Ireland) and Goblin Portal (Sweden) are collaborating on a comic platformer where you play as a goblin living in a spoof MMO, beset on all sides by greedy adventurers who seek treasure and experience points. Normal game roles are reversed and the in-jokes come thick and fast.. fun is poked at games, gamers, streamers and youtubers; the game is packed full with gamer and pop culture references.

G&G includes a built-in campaign where you seek to revenge your family who have been murdered by a level 100 Paladin; additionally, a powerful map editor is included, with online sharing/leaderboard facilities for player-made maps. G&G is often described as an indie Super Mario Maker.

Voted through Steam's 'Greenlight' process in just 4 days, in July 2015, Goblins & Grottos is now available as an **Early Access title**: <http://store.steampowered.com/app/389190>. Full release is expected by May 2016.
