

**Panmorphia: Awakened** is a point and click, puzzle adventure game set in the magical world of Panmorphia. It comes with a unique game mechanic that allows you to dynamically alternate between the four elemental forms, human (fire) - cat (earth) - bird (air) - fish (water), as you navigate through the world of Panmorphia. Each animal form comes with a different point of view and set of abilities.

## The Legend of Panmorphia

The legend goes that in each generation a child is born, a sentinel, bound to the land of Panmorphia and the four elements that govern it. The sentinels have the ability to wield each element and transform themselves into an animal that best represents it. With the use of the amulet they are able to combine all four elements and travel through the aether. They are called upon for help in times of need.

In the first adventure, you transformed into a cat, bird and fish, and saved the four trapped elements! In your second adventure, you visited the Lost Temple and upgraded the amulet to enable you to swap freely between the four elemental forms!

In your third adventure, you are heading back to Panmorphia!

You can now use the amulet to transform freely between the four forms.

Each transformation affects your worldview!

The spirit of Panmorphia has tasked you with finding the four sentinels and awakening them.

The future of Panmorphia depends on your success!

Good luck, Sentinel!
