

Santafeast studios just released their new Arcade Game Arrow Swings

Take a role in getting the new game in front of public

Recently Santafeast released their game Arrow Swings. An addictive arcade game with lot to explore inside. All new paper styled graphics with addictive game play and lot of amazing features which make the user to feel the fun.

Arrow Swings is joyful, free arcade-style game in which you can shoot at the right spot of the building to reach the next platform. Keep shooting and swinging from platform to platform to reach a highscore. The arrow should generate enough rope to reach the next platform.

Simple one touch game play with interesting Paper Graphics, lots of twists that will keep you entertained for hours! Watch the game trailer here <https://youtu.be/V3n2dUGjaDY>

Features

- Realistic Physics
- Changing game play with amazing soundtrack
- Leaderboard, Achievements
- Simple system of controls with many Players and Bows to unlock

Amir Yattoo, Founder of Santafeast says, while developing the Arrow Swings our aim was to make our users phone as amazing as a toy in kids hand. We believe Gamers can feel when developers are passionate about their games and this made us to come back to work for the last one year.

The incredible Arrow Swings _Fun with Arrows_ is available on Android Play Store @ <https://goo.gl/2UrvUG> and soon will be available on Apple App store. One can also download the app just by scanning the QR code.

Santafeast is an Independent video game development studio founded and led by game enthusiast Amir Yattoo. Being a passionate indie studio, we challenge ourselves to create games with new mechanics, polished aesthetic and interesting game play.
