New shooter game with oldschool feel to it! You chose a space ship and fight the alien enemies relying on your quick reflexes for succes. You are the only thing that stands between total annihilation of your planet and the enemy. You move quickly from right to left traveling through space avoiding deadly asteroids and your enemies shots.

Naughty Peacemaker

Little Rascal

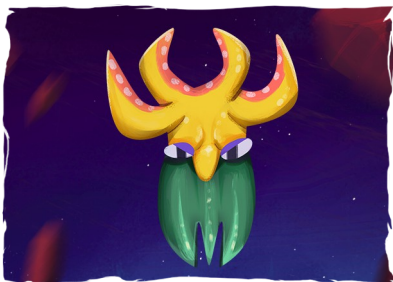

You'll be battling four different alien creatures and you'll have two space ships at your disposal. You need to use your superior reflex and shoot down the aliens attacking you before they shoot you. Don't let them get to you or it's game over – and there's no hope left for your planet! Game might be challenging in the beginning, but don't get discouraged and fight to save your planet! Play tirelessly and unlock new achievements and gain new guns that will help you prevail and beat the enemy!

*The Terrible Vaspler* – always giving you the intergalactic stink eye, charging with sharp fangs

*Flash The Snailer* – beware of those hypnotizing big eyes and sharp teeth, he shoots to kill

*Almighty Callamarie* – knows no mercy for enemies, so get rid of him before he gets rid of you

*Four eyed Crusher* - beware of the innocent looking ones, they usually turns out to be the most dangerous ones

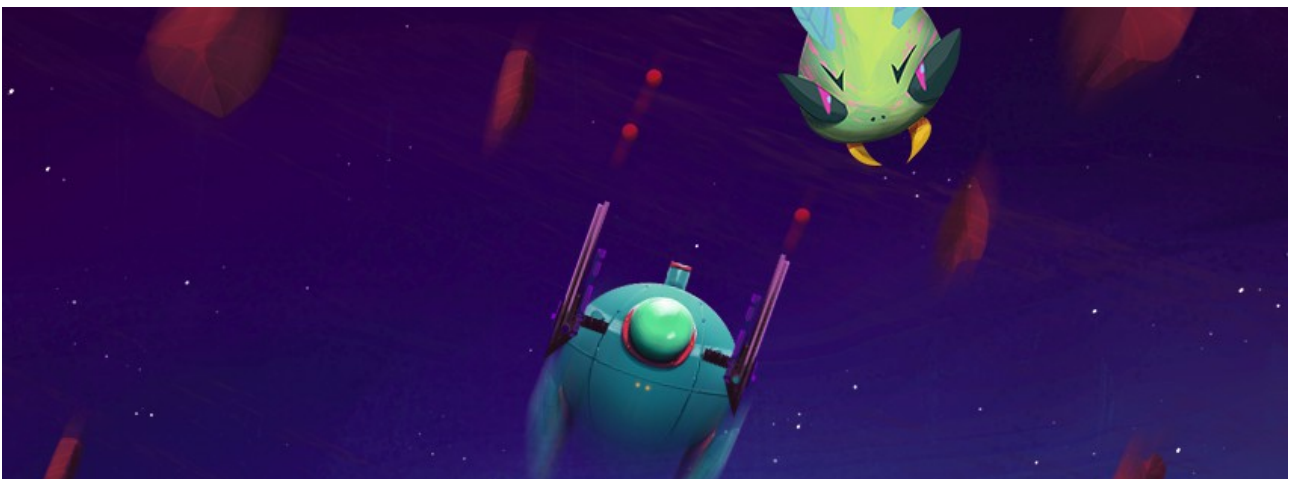

We dream of taking Space Pogo to the next level! We want to make it even more fun and entertaining than it is. We are campaigning at Indiegogo as we want to bring Space Pogo to other platforms – starting with iOS. Creating new levels, spaceships&enemies, guns&achievements, more undiscovered corners of galaxy for everyone to explore! Every level will have its own BOSS – big, nasty and dangerous super alien making you life harder and playing more rewarding.

As we believe spirit of competition is important we want to introduce daily challenges and multiplayer mode that will keep every gamer engaged playing everyday!
